EYOF Brașov 2027 builds its foundation on the sports venues used in the previous 2013 edition. In the meantime, significant infrastructure updates have been made, which you will discover during the CdM Seminar venue visits. To help familiarize you with our project, we are pleased to provide insights into the sport planning initiated for each discipline, as well as the venue services and facilities we offer.

We will continue to update this document and will provide a second version on 14 January 2027, featuring further details on competition operations and the procedures to follow. The EYOF Brașov 2027 program highlights 10 sports disciplines: Alpine Skiing, Biathlon, Cross-Country Skiing, Figure Skating, Ice Hockey, Ice Hockey 3x3, Short-Track Speed Skating, Ski Jumping, Ski Mountaineering, and Snowboard Cross. Compared to the previous edition, Ice Hockey 3x3 will make its EYOF debut, while Ski Jumping, Snowboard Cross and Ski Mountaineering return to the program.

Rooted in a deep tradition of winter sports, the EYOF Brașov 2027 features 45 distinct events distributed evenly between 18 for boys, 18 for girls, and 9 mixed competitions. Top-performing athletes will compete for a total of 384 medals.

Initial submissions of the preliminary entries by number show an overwhelming response from NOCs, with over 1,300 athletes projected to compete.

The main pillar of our planning and competition organization is a compact plan featuring two clusters across two dedicated Athletes' Villages. Located roughly a 60-minute drive apart, both AVLs will offer unforgettable experiences to the athletes:

- Main Athletes Village (AVL 1) in Poiana Brașov acts as the central hub, hosting six disciplines: Alpine Skiing, Cross-Country Skiing, Ice Hockey, Ice Hockey 3x3, Ski Jumping, and Snowboard Cross;
- Satellite Athletes Village (AVL 2) in Cheile Gradiștei Fundata manages four sports: Biathlon, Figure Skating, Short Track Speed Skating, and Ski Mountaineering.

Competitions will take place across eight venues. Highlighting the sustainability and infrastructure of the region, six of these eight venues are part of the direct legacy of the EYOF Brașov 2013, continuing their tradition of hosting premier national and international events annually.

Participation and Eligibility

The eligibility of athletes intending to participate in the EYOF is determined by the general rules of the International Federations (IFs) and the European Olympic Committees (EOC) regulations, as detailed in the Sport Data Overview (SDO). The SDO outlines the approved classifications for sports, disciplines, categories, and quotas.

Individual athlete and team qualification criteria fall under the remit of the respective National Olympic Committees (NOCs), with the exception of team sports, where qualification systems are established by the respective IFs.

Eligibility will be verified prior to the start of competition in accordance with procedures decided by the governing sports federations or Technical Delegates (TDs). No exceptions will be made; athletes who do not comply with the rules or age categories specified in the SDO will be barred from competition.

To participate in the EYOF Brașov 2027, NOCs must complete the Delegation Registration Process. Please note that the total number of athletes in an NOC delegation directly determines the number of accreditations allocated to other NOC delegation members.

Finally, athlete eligibility and official quotas will be strictly verified against the Sport Data Overview.

Sport Entries

Sport Entries is the official registration process for athletes to participate in the EYOF Brașov 2027. It is one of the final steps NOCs must take to ensure their athletes are registered for their respective sport disciplines.

Please note the following:

- Sport Entries can be managed, reviewed, and confirmed only through the dedicated online platform;
- The Long List should contain all athletes and officials with a chance to be selected into your team and registered on the online platform;
- A Short List is required in order to finalize your team's participation at the EYOF Brașov 2027. Keep in mind that only athletes from the Long List can be selected for the Short List;
- An athlete may be entered into one or more sport disciplines, subject to individual sport regulations. All such entries must be recorded on the online platform;
- The NOC must submit all Sport Entries by 1 February 2027, at 23:59 Romania Time (GMT+2);
- Sport-specific data is required for each discipline, as per the table below:

Sport Code	Sport specific data required for Sport Entry
ALP CCS SJP	- FIS code (numerical field)
BTH	- IBU code (alphanumeric field)
SBD	- FIS code (numerical field) - stance (option field: Goofy or Regular)
IHO IH3	- height (cm; numerical field) - weight (kg; numerical field) - position (option field: Goalkeeper, Defender or Forward) - handedness (option field: left or right) - jersey no. (numerical field) - club name (text field)
FSK	- music (submit via the Extranet) - program content sheet (submit via the Extranet)
STK	- season's best for each event - season` 's best result: time format field (mm:ss:ttt); the result must be entered in thousandths - date: date format (dd.mm.yyyy) - place: text field
SMT	- ISMF ID (numerical field)

The registration rules and guidelines will be detailed in the Accreditation and Sport Entries Manual, which will be shared with NOCs.

It is each NOC's responsibility to review its entries prior to final submission. Starting 1 February 2027, the platform will be restricted to read-only access. While NOCs will still be able to view their entries, they will no longer be able to edit them. After this date, no further entries will be accepted, and Late Athlete Replacements (LARs) will only be permitted in exceptional cases.

3. Communication

A WhatsApp group will serve as the official communication channel for EYOF Brașov 2027. You can join via the QR code provided in the second version of the Technical Manual;
SID will be located at AVL 1 (inside the Poiana Brașov Services Center) to provide start lists, results, schedules, weather updates, and other sport-related information. This information will also be available on the official EYOF Brașov 2027 website;
We will establish the radio frequency registration and assignment policy and share the details with you as soon as they are finalized.

TCM and other meetings

TCM will take place at the Poiana Brașov Services Centre (PBS). The first informal meeting will be held on 13.02.2027 at 18:00 and TCM will be on 14.02.2027 at 16.00 and further meetings will be announced at each subsequent TCM

4. Competition Regulations

The EYOF Brașov 2027 will be organized in accordance with the EOC EYOF Charter and the current FIS ICR Rules.

5. Competition Format and Rules

Slalom & Giant Slalom

Group Draw and Start Order

The classification of competitors who are present is made by the Jury;
The FIS Points List worked out by FIS must be used for the classification of competitors. If competitors do not appear in the last valid FIS points list, they will be assigned to that group of competitors without FIS points;
The starting order of the competitors in all alpine competitions is determined by their FIS points. A first group of a maximum of the 15 best competitors present regardless of nationality will be drawn;
The group may be increased if two or more competitors share the 15th rank;
All remaining competitors start in order of their FIS points. All competitors without FIS points will be drawn in the last group;
If in the first 15 competitors present, the points difference between one and the next competitor is too big, the Jury will decide the number of competitors in the first group. The rest will start in the order of their FIS points.
Starting Order for the 2nd Run

In competitions with two runs, the starting order for the second run is determined by the result list of the first run except for the first 30 places. The first 30 competitors will start in reverse order.

Mixed Team Parallel Format

Competition Format

The race will be conducted as a parallel GS event (PGS), using Giant Slalom gates and panels.
Giant Slalom (GS) skis must be used.
Giant Slalom (GS) specifications for alpine competition equipment are valid with exception of the race suits.
The distance from turning pole to turning pole should not be less than 13 meters.
The minimum vertical drop of the competition course should be 50 meters and the minimum length should be 160 meters.

Eligibility of the Teams (NOCs)

The top 16 Nations (or top 15 if the host Nation is not ranked in the top 16) who scored the highest points at the previous (25-26) Marc Hodler Trophy are qualified.

If there are not 16 qualified Nations present, the calculation will be made adding the Giant Slalom (GS) FIS points of the 4 (2 Women + 2 Men) entered the racers for the Mixed Team Parallel Event.

The Nation with lowest result of FIS points will have the possibility to start.

The total team size per Nation is limited to a maximum of 4 competitors (2 Women + 2 Men).

The 4 competitors per Nation have to be announced by name at the TCM.
Only one team per Nation can be entered that fulfils the criteria.
A competitor can only start a run once.
Mixed teams from 2 or more different Nations cannot take part in the competition.

Seeding of the Teams

16 Nations will form 8 heats.
Bracket list will be arranged as follows:

- Heat 1: Nation 1-16
- Heat 2: Nation 8- 9
- Heat 3: Nation 5-12
- Heat 4: Nation 4-13
- Heat 5: Nation 3-14
- Heat 6: Nation 6-11
- Heat 7: Nation 7-10
- Heat 8: Nation 2-15

The best Nation, according to the final Marc Hodler Trophy standing from the previous season (2025/2026), will receive bib number 1 and the last nation will receive bib number 16. If the host nation is not ranked in the top 16 will receive bib number 16. Women will race in bibs with odd numbers (1 and 3), men in bibs with even numbers (2 and 4).

Running the Competition

Each individual leg between two opponents consists of one run.

The start order will be as follows:

- "Course Red" Nation 1 W1 against "Course Blue" Nation 16 W1
- "Course Blue" Nation 1 M2 against "Course Red" Nation 16 M2
- "Course Blue" Nation 1 W3 against "Course Red" Nation 16 W3
- "Course Red" Nation 1 M4 against "Course Blue" Nation 16 M4

The blue course will be located on the skier's right.
The starting order cannot be changed from one heat to the next heat.

Points Scoring

The winner of each individual race (leg) scores 1 point for his/her Nation.
In case of a tie in an individual race (leg), both nations are awarded 1 point.
If there is a tie at the end of the heat (2:2) the nation with the lowest combined time for the best individual Women and the best individual Men (or second best in case of a tie for the best time) will win the heat.
If both competitors fall to finish, the competitor who completed the mosrt gates will be the winner.

Reasons for Immediate Disqualifications and Without Protests

Stepping back.
Changing from one course to another interfering with the opponent voluntarily or not.
Not passing through a gate correctly (ICR art. 661.4.2)
The inspection of materials and equipment will be conducted in accordance with FIS rules and EOC policy regarding the EYOF Commercial, Propaganda and Advertising Rules.
Bibs will be distributed at each TCM prior to the race day.
Sport equipment storage and waxing cabins will be located at the base of the competition slope. Each NOC will have a dedicated space to store and wax skis, allocated based on the final entries by number.

Withdrawal, LAR and LOR procedure

Withdrawal procedure, exclusion of athletes and protests will be made according to the International Ski Federation rules ICR 2026/2027.
The LAR and LOR policies will take effect immediately following the Sport Entries by Name deadline.
Technical Delegates will verify athletes' dates of birth and nationalities. Consequently, Late Athlete Replacements (LAR) will only be permitted if they comply with the EYOF Brașov 2027 Sport Data Overview.
Athletes may be replaced by substitutes only in the same sport, discipline/event type and gender event, within the specific quota.

LAR and LOR would be possible if:

- the substitute (replacement) athlete/official is eligible to take part in EYOF Brașov 2027;
- the substitute (replacement) athlete/official stands on the delegation Long List;
- LOR is possible until the respective Introductory Meeting.

6. Competition and Training Schedule

The EYOF Brașov 2027 alpine skiing competition will be held on the 'Subteleferic' Slope in Poiana Brașov. This venue is fully homologated for Slalom (SL) and Giant Slalom (GS) events, with certificates (14602/10/22 and 14603/10/22) valid until July 1, 2032.

The 'Lupului' Slope will be used for training. To support team preparations, the Organizing Committee will provide a standard number of training poles.
Access to competition and training venues via the ski lifts requires an accreditation card. Ski passes for athletes and officials will be distributed to the Chefs de Mission (CdMs) during the Introductory Meeting.

7. Common Waxing Protocol

Venue Setup & Capacity

The control and testing process will take place at the waxing station, located close to the start area and adjacent to the material control room. A dedicated space of at least 50 m^2 is available, organized into 4–6 separate testing stations. Each station will be fully equipped and operated by specialized staff.

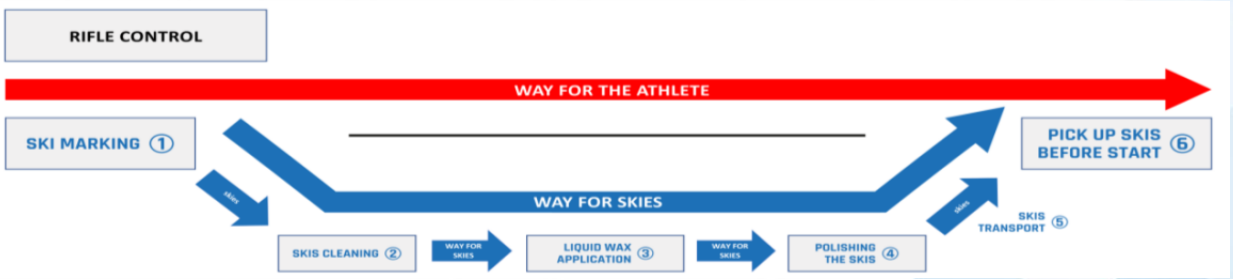

Coordination & Supervision

The entire process will be coordinated by the responsible IBU Referee, working in close cooperation with team technicians and coaches.

Schedule & Timeline

The primary testing window will take place within a dedicated timeframe on the day before the competition, commencing immediately after the start lists are officially confirmed. However, in the event of challenging weather conditions—and following consultation with team technicians—ski testing and final preparation may also be conducted on the morning of the competition day.
The official times for ski collection and the start of common waxing will be published in the daily competition schedule. The ski cleaning procedure will remain uniform throughout the event.

Ski Waxing Procedure

Liquid or Cold application using roto wool, prepared by daily appointed NF's Technicians.
Within the designed time before the race, Technicians may apply manual structures according to specific rules:

- only in the CW Station in the presence of IBU Official;
- only official equipment may be used for wiping and polishing, and it must be done according to CW protocol;
- a maximum of two NF Technicians may participate in this process;

Ski marking and spot check:

- Skis must be delivered to the control station (either by the athlete or team staff) and placed in the dedicated ski stand;
- Skis need to be received, marked by stickers with the bib number of the athlete on;
- Stickers can be handed out before the race in a separate envelope. Technicians are responsible for attaching the appropriate sticker to the skis in a vertical position in the area behind the binding;
- Ski surface needs to be cleaned from all sides to reduce contamination risk.

Spot checks:

- Randomly chosen skis might be tested by FTIR methods to exclude unauthorized material containing fluor (one ski from each pair will be tested in 3 randomly chosen points on the ski base according to the IBU test protocol).

When the skis pass the control successfully, they will be placed back in the ski stand and wait for the next cleaning. If the ski fails at the check, they will not be placed in the ski stand or ski holder but marked and returned to the team.

It will be possible to replace "fail skis" one time for each Athlete during competition week (or after appropriate cleaning by team technician).
A responsible member of each NF should wait near the station so that he/she will be informed immediately about a failed ski. In case a team member is not present, in formation will be forwarded by radio to TD or RD and then to the Team Coach at the shooting range. The results of the tests are final and not subject to protest.
Test of the ski and ski transport must be conducted in such a way that no contamination occurs by the operators, volunteers, or OC side.

Measuring procedure

- 0-1GREEN, move to next point, up to three points;
- 1.1-1.8 YELLOW but remeasure without moving the instrument if <1 GREEN,if > 1.81 RED, Green means green point, red means red point;
- >1.81RED continues to next point and remeasure.

Threshold zones

Threshold zones are based on the current IBU/FIS calibration model for Alpha II and may change after it is updated. Information about changes will be officially announced before the intended implementation.
The same limits apply before and after the race.

Threshold zones		
0-1	1,01-1,8	1,81+

Ski cleaning:
Depending on the number of Competitors, cleaning will be performed by two or four Technicians. Skis will be brushed by soft steel brush (manual or roto) and then cleaned with wax remover-soaked paper. Afterward, they will be left to dry.

Wax application:
Dedicated wax will be applied on the ski base. Afterward, they will be left to dry according to the producer's recommendation.

Ski polishing:

Ski will be polished by dedicated tools: roto brush or roto wool. After wiped by special fabric.

Ski transport:

Depending on wax station location– skis will be transported by volunteers in ski holders or directly placed in dedicated place close to start area.

- Skis must be in the "Start" ski stand at least 10 minutes before the start.

Pick-up the ski by Athlete:

Skis will be picked up from the ski racks directly by athletes only (not by teams staff/ not handed over by officials) before the start when entering the start zone.

Single Mixed Relay:

In Single Mixed Relay Competitions athletes can only use one pair of skis. Rewaxing in between changes is not allowed.

Ski Test after the race:

Randomly chosen skis will be tested by FTIR methods after each race according to ECR:
The skis will be taken by the IBU official and/or the designated volunteers in the finish area and brought to the test station. At least one ski from each pair will be tested in 2 randomly chosen points on the ski base according test procedure.

8. Rifles and Ammunition Procedure

The procedures for the import, export, and transportation of firearms and ammunition to the venues will be communicated in due course.

9. Venue Services and Facilities

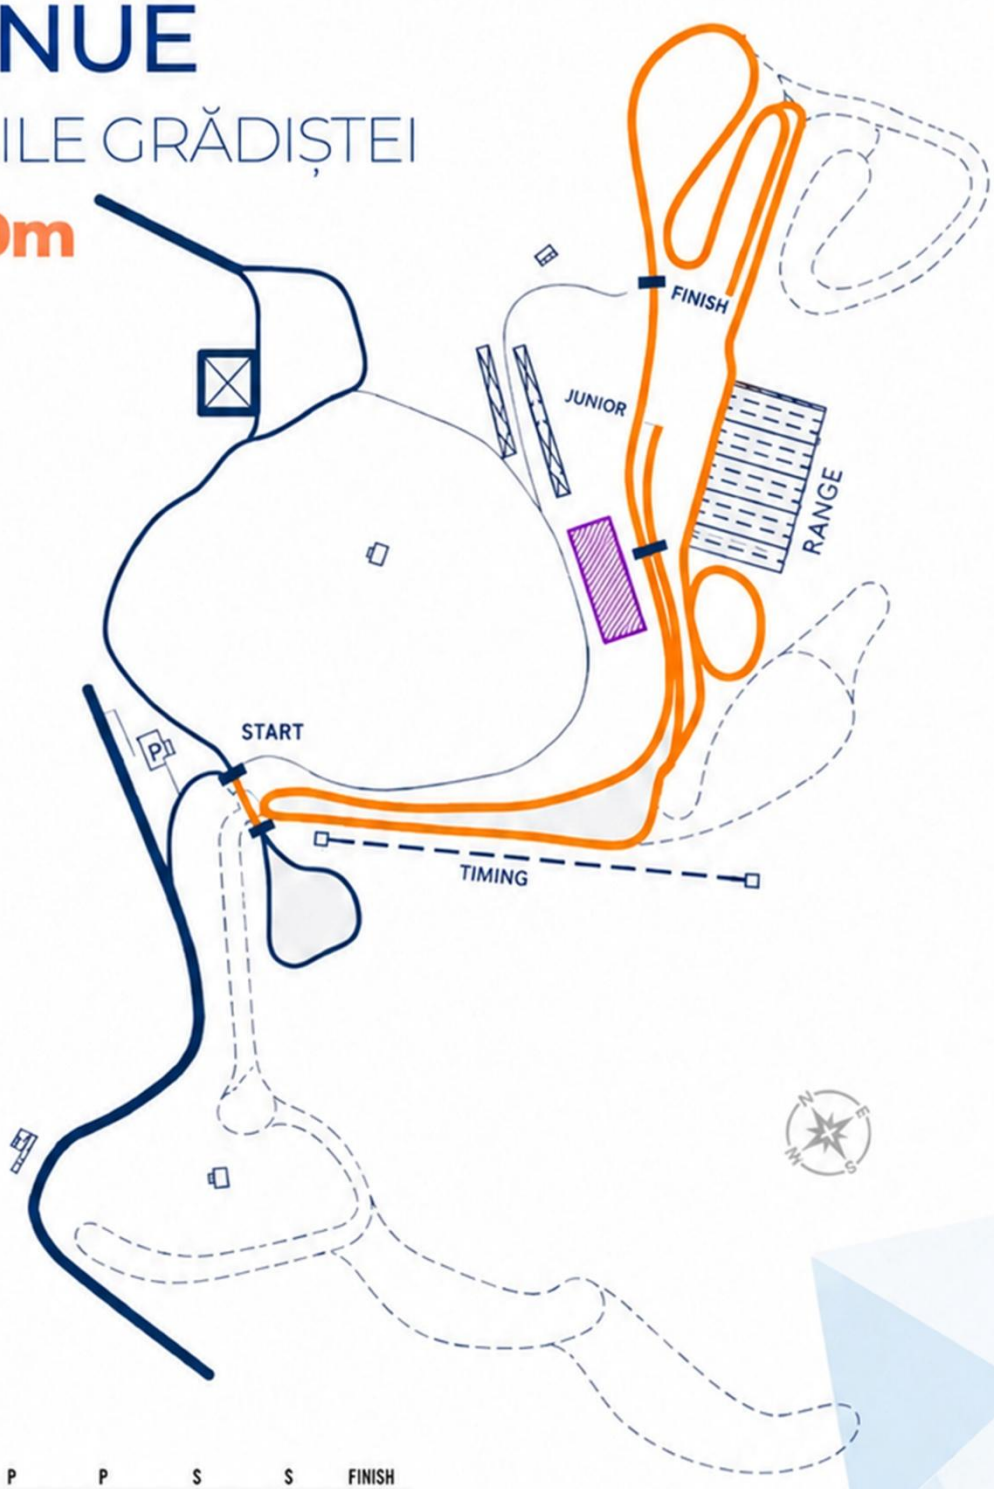

A sports hall, leisure pool, gym can be used into the Cheile Grădiștei Fundata resort.

We will establish the radio frequency registration and assignment policy and share the details with you as soon as they are finalized.

TCM and other meetings:

The first TCM is scheduled for February 15, 2027, at 16:30. Subsequent meetings will take place one day prior to each event.

4. Competition Regulations

The EYOF Brașov 2027 will be organized in accordance with the EOC EYOF Charter and the current FIS Rules and Regulation ICR 2026/2027.

5. Competition Format and Rules

Individual Classic

- Individual start interval will be 30 seconds;
- Each competitor starts at his/her designated starting time and the final result is determined by difference between finish time and start time;
- The competitor may start any time between three seconds before and three seconds

after the start signal;
- 2.5km Cross-Country Skiing course will be used classical tracks;
- Athletes will be ranked according to the time achieved. If two or more competitors have the same time, they shall have the same ranking in the result list, and the competitor with the lower starting number will be listed first.

Individual Free

- Individual start interval will be 30 seconds;
- Each competitor starts at his/her designated starting time and the final result is determined by difference between finish time and start time;
- The competitor may start any time between three seconds before and three seconds after the start signal;
- 2.5km Cross-Country Skiing course will be without tracks;
- Athletes will be ranked according to the time achieved. If two or more competitors have the same time, they shall have the same ranking in the result list, and the competitor with the lower starting number will be listed first.

Sprint Free

- Individual sprint competitions begin with a qualification round, organized as an
  - Interval Start competition. After the qualification, qualified athletes compete in the sprint finals using elimination rounds (sprint heats);
- The course used for the qualification round and the course used for the Finals Heats should be the same;
- For qualification Interval Start procedure must be used (see ICR Art. 315.2). Start intervals is 15 seconds;

Music

In accordance with Rule 343 in the ISU Special Regulations & Technical Rules Single & Pair Skating and Ice Dance, the following method to submit the Competitor's music to the Organizing Committee must be followed:

- the ISU Member is responsible for submitting their competitor's music, until January 25th, 2027. Please note: some music files might exceed the size of a regular email. In this case, an email-based transfer service which allows to send large files could be used to send the file to the OC;
- each submission shall be labelled with the name of the ISU Member, name of the category, segment and the name(s) of the competitor(s):

Example:
GER_Men_SP_MUSTERMANN-Max

GER_Men_FS_MUSTERMANN-Max
SUI_Pairs_SP_MUSTERMANN-Erika_MUSTERMANN-Max

- the music files must be sent as WAV or MP3 file formats. Any other format is not acceptable. Please note: Files in MP3 format may have a significant difference in the music quality when reproduced. In this case the Organizing Committee is not responsible if the music quality would be insufficient.

Each Competitor must have their own back-up drive (USB Stick) for each program in the format of a WAV or MP3 file.

The exact running time of the music (not skating time) must be communicated to the Organizing Committee when submitting the music and shall be certified by the Competitor/Coach/Team Leader at the time of registration.

During the 1st Official Practice, the music will be played as indicated in the Practice Schedule and will allow to verify the correctness of the submitted music. If there is an issue with the music, the Team Leader/Coach may be allowed to change the music by presenting an acceptable reproduction to the Organizing Committee's Music Team (USB Stick with file format of WAV or MP3 file).

If the music files have been submitted within the above-mentioned deadline to the Organizing Committee, then the music team of the Organizing Committee is entirely responsible for the correct execution of the music. In case of issues with submitted music files the Organizing Committee may request at the time of registration a secondary copy of the music files. In case the music files have not been submitted in time to the Organizing Committee, the skater(s) must present their music latest at the time of registration on the above defined mean and in the defined format.

Please note: CDs will not be accepted by the Organizing Committee.

ISU Members/Skaters are reminded to in order for them to use music to accompany their routines, the following 'Music Accompaniment' rights/ licenses are required:

- the right to edit or adapt music into a mix, if more than one song is being used;
- the right to set choreography to the music, often referred to as a 'Grand Right', which is the right to perform musical compositions and recordings within the context of a "dramatic work" or choreography;
- the right to create any copies of the music that may be needed for training and competition purposes, also known as the 'mechanical rights.

In order for a music to be fully cleared for these uses, these rights need to be cleared for each and every track used in each mix that contains a license (backed by a warranty and legal indemnity) for appropriate territory(s) that covers both the master rights of the recording artist and the publishing rights of each individual writer and composer of the track.

There are a number of ways in which ISU Members and their Skaters can legally use or create a music mix to accompany your routine/performance:

1. For easy compliance with the above-mentioned requirements, it is recommended to use commercially released or production music from the ISU approved licensing provider, ISU.

WWW.ClicknClear.com . Subject to the music being available on the ClicknClear platform for the country where it will be used, it can be licensed instantly. Skaters/Members can access ClicknClear directly through the ISU Portal under the music tab.

2. Use completely original music (specially commissioned) written and/or recorded by a composer and/or artist. If you do this, please ensure you have contractually obtained the relevant rights required. ClicknClear's License Verification System has an online form that your composer/artist can use to confirm the rights they have granted you.

3. Use music out of copyright (otherwise known as music in the public domain). To be noted that the duration of copyright varies in each country so ISU Members MUST check their local copyright law.

4. Secure a license directly from the owners of the music the Skaters would like to use. In some cases, ClicknClear may be able to assist in the clearance of music not the currently available on the ClicknClear platform. However, please note this route may be significantly more expensive, may take significant time, and there is no guarantee of a positive outcome. The Planned Program Content must also be entered by the ISU Member or the Skater(s) on the dedicated ISU platform. It is mandatory that the Program Content information be filled in precisely by each Skater/team in English using the terminology for the elements listed in the respective ISU Communication.

A simple music form for the programs of each competitor indicating the name and the duration of the music must be sent via NOC no later than the 25th January 2027. If music information is not complete or/and the music is not provided accreditation will not be given.

"The Planned Program Content must also be entered by the ISU Member or the Skater(s) on the dedicated ISU platform.

It is mandatory that the Program Content information be filled in precisely by each Skater/team in English using the terminology for the elements listed in the respective ISU Communication.

Also, it is mandatory for each competitor to submit the official "Planned Program Content Sheet" to the EYOF Brașov 2027 OC. The form, which will be available on the Extranet, must be duly filled in and submitted via the NOC by 25 January 2027.

Withdraw, LAR and LOR procedure

Withdrawal procedure, will be made according to the ISU Rules and Regulations.
The LAR and LOR policies will take effect immediately following the Sport Entries by Name deadline.
Technical Delegate will verify athletes' dates of birth and nationalities. Consequently LAR will only be permitted if they comply with the EYOF Brașov 2027 Sport Data Overview.
Athletes may be replaced by substitutes only in the same sport, discipline/event type and gender event, within the specific quota.
LAR and LOR would be possible if:

- the substitute (replacement) athlete/official is eligible to take part in EYOF Brașov 2027;
- the substitute (replacement) athlete/official stands on the delegation Long List;
- LOR is possible until the first draw.

- 6 members of the participating teams (one member per country).

The official Medical Supervisor (1x) and Result Manager (1x) will be nominated by EYOF Brașov OC in cooperation with the IIHF technical delegate.

ITOs, Judges and Referees

The Organising Committee (OC), in close cooperation with the IIHF Technical Delegate, will coordinate the appointment of the Game Officials for the EYOF Brașov 2027 Boys' Ice Hockey Tournament.

The Sport Department of the EYOF Brașov 2027 OC is currently assessing the most appropriate arrangements for securing the required Game Officials for the Ice Hockey competition.

A number of possible arrangements are being considered, including a mechanism involving the nomination of suitably qualified and eligible officials through the participating NOCs and their respective National Ice Hockey Associations. Similar arrangements have been implemented at previous editions of the Winter EYOF and are therefore among the solutions currently under consideration.

The final arrangements, including the nomination, selection, appointment and logistical support of Game Officials, will be established in consultation with the relevant stakeholders and will be subject to the formal approval of the Organising Committee, the European Olympic Committees and the International Ice Hockey Federation.

Once the arrangements have been duly agreed and officially confirmed, the NOCs will be informed accordingly, and the approved mechanism will be implemented in accordance with the applicable IIHF regulations, requirements and procedures.

Depending on the final arrangement approved, the OC may provide for the travel and accommodation expenses of the appointed Game Officials, together with a per diem at an agreed and approved rate, in accordance with the arrangements confirmed for the competition.

In line with practices adopted at previous editions of the Winter EYOF, the provision of appropriate officials' apparel and/or equipment may also be considered as part of the arrangements for appointed Game Officials. Any such provision, including the scope and items to be made available by the OC, will be determined and communicated once the final arrangements have been agreed and approved.
All appointed Game Officials will be expected to fulfil their assignments in accordance with the applicable IIHF regulations, officiating requirements and procedures, and to comply with the instructions of the IIHF Technical Delegate, Officiating Coach and Competition Management

The tournament directorate will consist of 11 members:

- IIHF Technical Delegate;
- IHO Organizing Committee;
- IIHF Officiating Coach;
- IIHF Medical Supervisor;
- Result Manager;
- 6 members of the participating teams (one member per country).

The official Medical Supervisor (1x) and Result Manager (1x) will be nominated by EYOF Brașov OC in cooperation with the IIHF technical delegate.

ITOs, Judges and Referees

The Organising Committee (OC), in close cooperation with the IIHF Technical Delegate, will coordinate the appointment of the Game Officials for the EYOF Brașov 2027 Boys' Ice Hockey Tournament.

The Sport Department of the EYOF Brașov 2027 OC is currently assessing the most appropriate arrangements for securing the required Game Officials for the Ice Hockey competition.

A number of possible arrangements are being considered, including a mechanism involving the nomination of suitably qualified and eligible officials through the participating NOCs and their respective National Ice Hockey Associations. Similar arrangements have been implemented at previous editions of the Winter EYOF and are therefore among the solutions currently under consideration.

The final arrangements, including the nomination, selection, appointment and logistical support of Game Officials, will be established in consultation with the relevant stakeholders and will be subject to the formal approval of the Organising Committee, the European Olympic Committees and the International Ice Hockey Federation.

Once the arrangements have been duly agreed and officially confirmed, the NOCs will be informed accordingly, and the approved mechanism will be implemented in accordance with the applicable IIHF regulations, requirements and procedures.
Depending on the final arrangement approved, the OC may provide for the travel and accommodation expenses of the appointed Game Officials, together with a per diem at an agreed and approved rate, in accordance with the arrangements confirmed for the competition.

In line with practices adopted at previous editions of the Winter EYOF, the provision of appropriate officials' apparel and/or equipment may also be considered as part of the arrangements for appointed Game Officials. Any such provision, including the scope and items to be made available by the OC, will be determined and communicated once the final arrangements have been agreed and approved.

All appointed Game Officials will be expected to fulfil their assignments in accordance with the applicable IIHF regulations, officiating requirements and procedures, and to comply with the instructions of the IIHF Technical Delegate, Officiating Coach and Competition Management.

4. Competition Regulations

The EYOF Brașov 2027 will be organized in accordance with the EOC EYOF Charter and the current IIHF Rule Book.

5. Competition Format and Rules

The 3x3 ice hockey tournament is organized on a small ice rink where young players are being correctly prepared for the speed and quickness they will encounter as they grow older. This sport discipline develops a positive environment, increases puck handling, and teaches puck protection by forcing players to play in smaller, confined areas.

The competition will follow:

- Three-point System;
- Overtime Operations;
- Penalty Shot Shoot-Out Regulations;
- Group Standing Regulations;
- Pre-/ and Post Game Regulations;
- Statistics system and regulations.

Line changes / Skaters

The players are free to change at their own discretion during the game.
The player entering the ice must wait until the teammate changing is within 3 meters from the board before the player can enter the changing zone. An infraction to the abovementioned rules results in a minor penalty call.
In case of a stoppage in play and a face off to be conducted, both teams will have five (5) seconds to conclude the line change before the game officials drop the puck at the center face-off spot.

Line changes / Goalies

The goalkeepers can change at any time during the game.
In these line changes, the goalkeeper is not allowed to play the puck or physically be in contact with an opponent.

Coaches can change goalkeepers at their discretion if a goalkeeper gets injured, the game official will stop the game time, and the goalkeeper shall be replaced by the back-up goalkeeper.
If both goalkeepers of a team are injured during a game, one of the skaters of the team will dress as a goalkeeper and be given sufficient time to dress as a goalkeeper.

Body contact

Physical contact, so called open-ice hits and hits along the boards are not allowed.
However, competitive contact by pushing or moving the opponent in a battle along the boards or in front of the goal to win the puck is allowed between the players.

Face offs

Only applies when:

- at the beginning of a halftime;
- if the puck is out of the field of play; and
- if another extraordinary reason forces the game official to stop the game.
- Opening face-offs are conducted at the center ice face-off spot;
- Players are allowed to freely choose where they position themselves but must be outside of the center ice face-off spot;
- Players participating in the face-off shall follow the outlined procedure for participating in the face-off according to the IIHF Rule Book;
- Any violation of the playing rule concerning the face-off procedure will give the team a warning followed by a bench minor penalty if repeated in the same situation.

Goalkeeper Freezing the Puck

If a goalkeeper freezes the puck, the game official shall blow the whistle if the goalkeeper is not immediately starting the play.
The attacking team must retreat, meaning that all attacking players must be in a motion, with reasonable effort to cross the retreatment line and remain in the neutral zone becoming the defending team. The goalkeeper then must immediately release the puck and move it to a team member.
Goalkeeper are allowed to stop and play the puck in its own zone but limited until the retreatment line within the own zone;
The attacking players can forecheck, when:

- all of the defending players have tagged or are on the defending side of the retreat line at the same time;
- if the goalkeeper initiates a pass, allowing an interception; or
- in case the goalkeeper is moving forward, stickhandling the puck.

If for a reason the goalkeeper cannot get out the puck by itself, the game officials must help accordingly and in a fast manner placing the puck in the goal crease.

Offside and Icing

The offside rule is not applicable throughout all events;
Intentional icing is a penalty and results in a penalty shot. In other words, an attempt at a real hockey play that misses are accepted.

No return rule

If a player from the offensive team skates out of the offensive zone with the puck, passes or play the puck across the center ice red line without any interference from the other team,

that is a turnover, and the respective team must immediately consign the puck to the other team and are able to attack once the puck is in full possession and in control of the puck by the opposing team.

This rule also applies to any attacking player within playing distance of the puck who deliberately refrains from playing it and chose to allow the puck to exit the offensive zone.

Penalties – Calling a penalty

As the game officials identifies infractions according the IIHF Rulebook, they will blow the whistle immediately, point at the fouling player and show the official infraction signal;
The game official must stop the play immediately, or after imminent scoring chance has ended, and collect the puck when a penalty has occurred regardless of who is having possession of the puck;
The player does not serve any time for the penalty being called. Instead, a penalty shot is given to the non-offending team;
The game official must stop the play immediately and collect the puck when a penalty has occurred regardless of who is having possession of the puck;
The game official should position the puck on the center ice face-off spot, and the penalty shot is taken by the fouled player if the player is not deemed injured;
The Penalty shoot follows the outlined procedure in rule 6.6.3 (IIHF Rule Book).

Minor Penalty

For infractions falling under the category of the Minor penalty in the IIHF Rule Book, the game official will reward the nonoffending team a penalty shot. The game time will be stopped for an infraction of a minor penalty;
If several minor penalties are committed in the same situation by the same team, then the team shall be awarded the number of penalty shots equal to the number of minor penalties;
If, in one situation, the same number of minor penalties are called on both teams, then the game officials should remove the same number of penalties against each other.

Major Penalty

When a major penalty is called in accordance with the IIHF Rule Book the following process is taking place:

- The game flow stops immediately, and with that also the game clock;
- The penalized player must leave the ice and go to the dressing room;
- The non-offending team is awarded with three (3) consecutive penalty shots and can score up to three (3) goals. If no goal is scored or if the opposing team takes away the puck in a fair way, he attempts is invalid, and the procedure continues with the next try.

Major vs minor coincidental

Where coincidental penalties of different severity are assessed at the same stoppage, the higher penalty shall determine the number of penalty shots awarded as follows:

Minor Penalty = one (1) penalty shot;
Major Penalty = three (3) penalty shots;

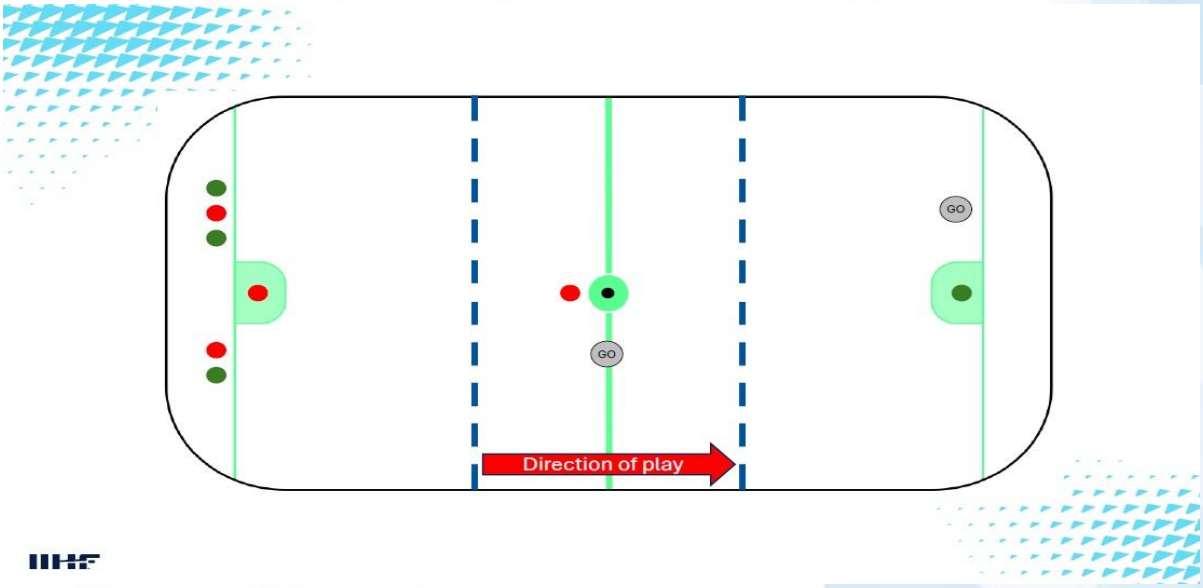

In situations where a Major Penalty and a Minor Penalty are assessed coincidentally to opposing teams, the penalties shall cancel each other, and the team assessed the Major Penalty shall be awarded two (2) additional penalty shots.

Penalty shot procedure

Penalty shots are to be conducted as per the IIHF Rule Book for any infraction that is deemed worthy of a penalty as presented under minor and major penalty section.

Exception:

- All players that will start up the game after the conclusion of the penalty shot will be positioned behind the goal line of the team who got awarded with the penalty shot;
- The penalty shot is started once the game official has blown the whistle. Skaters from both teams can follow the skater taking the penalty shot;
- The following skaters are allowed to overtake and engage in any competitive contact by stick or body with the player taking the penalty shot but in compliance with the IIHF Rule Book;
- A skater taking the penalty can pass the puck to a teammate during the penalty shot;
- If the skater scores a goal, the goalkeeper must release the puck as explained under Goalkeeper freezing the puck and the game continues;
- If the skater cannot score on the penalty shot, the game continues immediately;
- A skater taking the penalty shot can pass the puck to a teammate during the penalty shot.

Game format

One game consists of the below procedures and is calculated to take no longer then 60 minutes from, the warm-up time in total. The teams and game officials are asked to respect the different aspects and the outlined schedule to keep each time within this time frame.

- Pre-Game;
- Game Time;

4. Competition Regulations

The EYOF Brașov 2027 will be organized in accordance with the EOC EYOF Charter and the current ISMF rules and regulations for organizing international ski mountaineering competitions.

5. Competition Format and Rules

This competition will mark the second appearance of ski mountaineering (skimo) on the EYOF program, following its debut at EYOF Friuli Venezia Giulia 2023 and its first-ever Olympic appearance at the Milano Cortina 2026 Winter Games. The program will feature two events: the sprint (boys and girls) and the mixed relay.

Boys and Girls Sprint

A varied, short course with ascent, descent, and a walking portion with skis attached to backpack,which will take place in qualifying phases, quarter-finals, semi-finals and final.
Race held by heats of 6 runners from quarter-finals to final.

COMPETITORS: 4 B/4 G;
Course inspection time: 15min;
Distance 700 m;
Positive ascent: 55 nm.

MIXED RELAY

2 distinct ascents and descents raced by each member of the relay team, with a part on foot in the 2nd ascent. The first uphill should be at least 60 m. Each relay leg must include 2 distinct ascents anddescents. A part of the second ascent requires a portion to be climbed on foot with skis strapped onthe backpack.

Each relay leg is run by a member of the relay team. Each competitor can participate in only ONE relay.

For safety reasons it is compulsory to include a short uphill (with skins on) before the handover, except for the last athlete of the Relay, who must proceed directly to the finish line.

If there are more than 12 teams, there will be a qualifying phase. The final will be with a maximum of12 teams. No quota for the Qualification and quota of 2 teams cannot change from the qualification phase to the final one.

Qualification system, with timed start. One Round. Only the 12 qualified teams go into the final: the female team starts first. The team is made up of the athletes with the best time.
2 competitors:
Order: G/B/G/B;

Distance 700 m;
Positive ascent: 110 m;
Course inspection time: 20min.

Equipment control

The EOC EYOF rules on advertising sports apparel and ISMF Guidelines for organising international ski mountaineering competitions,point 5.3.1 regarding materials and sport equipment will apply.
The EOC EYOF Rules on Advertising on clothes applies.

Bibs Competition

Bibs will be handed over at each TCM, the day before the competition. Timing transponders will be distributed at the staring area.

Waxing cabins

Sport equipment storage and waxing cabins will be located at the competition venue. Each NOC will have a dedicated space to store and wax skis, allocated based on the final entries by number.
Keys for the waxing cabins will be available at the Race Office.

Flower Ceremonies

FLOCER will take place at the competition venue.

Victory Ceremonies

VIC will be conducted following the EYOF Ceremonies Guidelines. This includes handing over medals to the winning teams (gold, silver, and bronze medals), playing the winner's national anthem, and raising the flags (on a digital screen);
Diplomas will also be provided for the medalists. These must be collected from the NOC Services Center by the CdM, their Deputy, or a proxy card holder the day after the VIC. The ceremonies will be conducted in English and Romanian.
